ANNIN & CO.

Is Your American Flag Made In The U.S.A.?

Annin Flagmakers is one of the founding members of the Flag Manufacturers Association of America (FMAA). The FMAA proudly sponsors the "Certified Made in the U.S.A." certification program to ensure the American flags you purchase are homegrown with pride. "Certified Made in the U.S.A." certifies that your flag has been made in the U.S.A. of materials that are domestic in origin and that all processes in every step of its manufacture were completed in U.S.A. facilities with U.S.A. labor.

U.S. law requires every flag be labeled with its "country of origin." Only the FMAA "Certified Made in the U.S.A." Certification label assures the standards and continued compliance as monitored by a professional association and its domestic members.

NYL-GLO[®] U.S. Flags

- *Best resistance to UV radiation*
- *Longest lasting nylon flag available*
- *Lightweight, flies in the lightest breeze*

NYL-GLO FEATURES

Embroidered Stars

Color-Matched Stitching

Lock-Stitched Fly Ends

Four rows of high strength lock-stitching on the fly ends reduces fraying and extends the flag's life (Six rows on larger flags).

Secure Flag Attachments

Sturdy, weather resistant brass grommets provide greater flag security in flags up to 6' x 10'. Larger flags feature a roped heading with galvanized thimble.

Fly Hem Corner Patches

Flags 15' x 25' and larger are finished with reinforcing corner patches on the fly hem.

Available As Flags Or Banners

Custom Pricing in 3 Simple Steps

Because all custom flag projects are... well, custom... we have devised an easy-to-follow system for determining the cost for your specific order - regardless of quantities, materials or options.

1. Identify Standard Pricing Based on Item Size & Order Quantity

Standard pricing charts listed with each item reflect the base price of each item before applying any added features. Most items are printed two-sided with a mirror image on the reverse.

2. If Custom Materials or Construction is Required, Apply Multiplier from Chart

200 Denier SolarGuard® Nylon is our standard fabric. Optional fabrics, double-sided constructions and liners are also available and can be priced using the Materials & Construction Multiplier Chart.

3. Add-On Costs for Finishing Options (if applicable)

Many items can be further customized with non-standard options such as Fringing, Pole Sleeves, Roped Headers, etc. Pricing for Add-Ons listed with each item if applicable.

Optional Fabrics

210 Denier High Tenacity Nyl-Glo

Same cloth treatment as standard Nyl-Glo but heavier and more durable. Perfect for windier conditions. 50 yard minimum quantity per order required on 210d. Standard lead time is 10 days.

Material & Construction Multipliers

Item	Multiplier
210 Denier Nyl-Glo Fabric	x 1.1
Double Sided without Liner	x 2.1
Double Sided with Tyvek Liner	x 2.4
Double Sided with Block Out Liner	x 2.4
Single Sided with Double Tyvek Lined Seal	x 1.8
Stock Nylon Backliner	x 1.2

Artwork Preparation

In order to obtain the best reproduction of your artwork, logo and graphics, it is important that all electronic artwork be prepared properly. In general, raster images (bitmapped jpg, tiff or PhotoShop files) need to be provided full-size and at a minimum resolution of 150 ppi. Vector art (ai, eps or pdf files) should be created either full-sized or in scale according to the dimensions/proportions of the flag or banner involved. Pantone® color matching is an integral part of our process so please specify PMS colors when necessary.

If your art is not print ready, or if assistance is required to create your artwork, our creative team is available, at an additional cost, to assist you in creating original artwork or adapting your artwork to a desired flag or banner.

Submitting Artwork for Anco-Dyed Printing:

Vector Art should be created to scale. Fonts converted to outlines. Specify coated or uncoated PMS colors as necessary. Accepted formats: .ai, .eps, or PDF. Color mode: RGB

Raster Art should be created full size at a minimum of 150 ppi. PhotoShop or Tiff formats are preferred. JPEG files may be used, but can result in diminished results due to image compression. Raster files are printed as-is, unless formatted as an RBG Indexed file with no more than 25 colors. In this format, color changes can be made if necessary.

Art Creation Charges:

Art Charges are billed at \$110 per hour. To create print-ready art, a clear image is required with colors indicated as necessary. A color rendering of the created art will be provided for approval.

Note: We make every effort to match colors as closely as possible, but for specific colors PMS numbers are required.

If PMS numbers have not been specified we cannot be held responsible for color matches once an item is manufactured.

Choosing uncoated PMS colors produces the closest color match.

Flags of Valor

Flags of Valor was inspired by the heroes of the terror attacks on September 11, 2001. With the ensuing war on terror, Flags of Valor pays tribute to the first responders and service men and women since the 9/11 attacks. Each flag planted annually on Art Hill in St. Louis' Forest Park honors the service members who made the ultimate sacrifice courageously fighting the ongoing war on terror.
